Hi Terri,

Can you please cross-check this list provided by Harry below with slide 31 (in attached file) and add as needed? Not sure if there will be any additional from Tab (message below), but can always add in later.

When you are done, can you send the slides to Amanda? (I think I'm done for now – thanks so much for creating the Alt. tech. slides!)

Here's a list of technologies being used in lieu of OB/OD for energetics.

Tab, can you do a printout of these? Is there a way to search for any others?

Laura,

I added a couple of other examples I am aware of. It may be good to separate the technologies used for chemical warfare agents (GB, VX, mustard) vs. technologies used for explosives and propellant compounds, since they have very different chemical properties and physical form that affects the applicable treatment technologies.

Regards,

Harry

Subject: draft list

Good morning Harry,

A number of affected communities have asked for a list of sites where alternatives to OB/OD and incineration have been permitted and/or deployed.

Here's what I have so far. Do you see any omissions or errors in the following?

Appreciate your time looking at this – I know you're very busy.

Laura

- DRAFT -

U.S. SITES WHERE ALTERNATIVE TECHNOLOGIES HAVE BEEN PERMITTED AND/OR DEPLOYED:

Supercritical Water Oxidation: Blue Grass Arsenal (KY), Dugway Proving Ground (UT), Newport Chemical Depot (IN)

Controlled Detonation Chamber (Blast Chamber): Pueblo Chemical Depot (UT), Santa Susana Field Laboratory (CA), Blue Grass Arsenal (KY), Edgewood Chemical Biological Center on Aberdeen Proving Ground (MD), Mass. Military Reservation (MA), Pier 90/91 FUDS site, Seattle (WA)

Dynasafe (Static Detonation Chamber): Blue Grass Chemical Agent-Destruction Pilot Plant (KY), Tooele Chemical Agent Disposal Facility (UT)

DAVINCH (Detonation in a Vacuum Assisted Chamber): Deseret Chemical Depot (UT), Bluegrass Arsenal (KY)

Hydrolysis: Aberdeen Proving Ground (MD), Newport Chemical Depot (IN)

Contained Burn Chamber: Camp Minden (LA)

- END DRAFT -
